## **DETAILED ACTION**

Claims 1-17 are presented for examination.

### ***Status of the Case***

The Amendments and Remarks, filed September 10, 2007 have been received and entered into the application. Accordingly, claim 1 has been amended and claims 10-17 has been withdrawn.

Applicant's arguments, filed September 10, 2007, have been fully considered but they are not deemed to be persuasive. Rejections not reiterated from previous Office Actions are hereby withdrawn. The following rejections are either reiterated or newly applied. They constitute the complete set of rejections presently being applied to the instant application.

### ***Maintained Claim Rejections - 35 USC § 112***

The term "less than about" in claims 2 and 3 is a relative term which renders the claim indefinite. The term "less than about" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. The phrase

"less than about" consists of two very broad and indefinite limitation. The phrase "less than about" fails to set forth a lower limit for the concentration of the agent. Such phrase covers 0% of the agent in the composition. The word "less than" conflicts with the word "about", both of them cannot be used in the same phrase. Further the term "less than about" contradicts with claim 1 which indicates the composition comprises astaxanthin, where such a phrase covers 0% of the agent in the composition. Applicant's remarks were fully considered but were not persuasive. Therefore, the rejection under 35 USC § 112 is maintained.

***Maintained Claim Rejections - 35 USC § 102***

Claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Oliveira et al. (US Pub. No. 2003/0157239 A1).

The rejection of claims 1-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Oliveira et al. (US Pub. No. 2003/0157239 A1) has been maintained for the reasons stated in the prior Office Action April 9, 2007 and further in view of the following remarks.

***Response to Arguments***

Applicant has amended claim 1 to provide that the composition may attenuate inflammation, enhance immune response, enhance longevity, or combinations thereof. Applicant argues that Oliveira et al. fails to teach a composition that may attenuate

inflammation, enhance immune response, enhance longevity, or combinations thereof.

Therefore, Oliveira et al. fails to anticipate the claims.

Examiner does not agree with Applicant's remarks the composition that may attenuate inflammation, enhance immune response, enhance longevity, or combinations thereof are all of intended use. An intended use fails to materially or physically limit the structure of the composition and that so long as the composition of the prior art can perform such a use, then it meets the claims.

Applicant's arguments were considered in its entirety but failed to be persuasive.

### ***Conclusion***

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136 (a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
